Sustainability Science Centre and Niels Bohr Institute, ICAT PhD School, present a sustainability lecture on 27 September 2019, with Heidi Roop, Lead Scientist for Science Communication at the University Washington’s Climate Impact Group in Seattle.

This talk will explore different approaches that go beyond ‘basic research’ to support the application and use of climate science across sectors and examine the challenges and opportunities facing researchers, elected officials and the public as we work together to integrate climate science into decision-making at a range of local, national and international scales.

Dr. Heidi Roop is Lead Scientist for Science Communication at the University Washington’s Climate Impact Group in Seattle, Washington. She is also an Affiliate Assistant Professor in the UW School of Environmental and Occupational Health Sciences and serves as an advisor to the Northwest Climate Adaptation Science Center.

**Paul Vallelonga**, Associate Professor at Ice, Climate and Geophysics, Niels Bohr Institute, University of Copenhagen, will moderate this lecture.

**Practical Information:**
**Time:** 27 September 2019, 16:00-17:30
**Place:** Aud. 4, HCØ
Universitetsparken 5
2100 Copenhagen

**Admission is free, registration at:**
http://sustainability.ku.dk

Sustainability Science Centre cooperates with CBS and DTU through the Copenhagen Sustainability Initiative, COSI.
